

## 1. Product and Company Identification

<b>Product Name</b>	: <b>AD-Triple Action</b>
<b>Usage</b>	: General Cleaner, deodorizer & sanitizer.
<b>Address</b>	: KSA -Khobar – NSH Tower 9 <sup>th</sup> floor
<b>Phone Number</b>	: +966 50 519 6007
<b>E-mail</b>	: <a href="mailto:info@maracialsharq.com">info@maracialsharq.com</a>
<b>Revision date</b>	: Jan, 2021.D
<b>Distributed by</b>	: Maraci Alsharq

## 2. Hazards identification

### 2.1 Classification

<b>Hazard classification</b>	: This chemical is not considered hazardous according to the OSHA Hazard Communication Standard 2012 (29 CFR 1910.1200)
<b>Health hazards</b>	: Eye irritation

### 2.2. Label elements

<b>Hazard pictograms</b>	: 
<b>Signal Word</b>	: Warning
<b>Hazard Statements</b>	: May Cause eye irritation. Harmful if swallowed
<b>Precautionary statements</b>	: Read label before use Keep out of reach of children
<b>Inhalation</b>	: Maybe cause transient slight irritation with prolonged exposure to concentrated material.
<b>Ingestion</b>	: Swallowing large amounts may be harmful by causing nausea, vomiting, and/or diarrhea (gastrointestinal irritation)
<b>Eye contact</b>	: Causes eye irritation (stinging, tearing, itching, swelling, and/or redness.)
<b>Skin contact</b>	: No irritation with brief contact. Prolonged contact may cause skin irritation (red, dry, cracked skin) especially in hot weather. May cause more severe response if skin is abraded (scratched, scraped or cut). May be harmful if absorbed through the skin.

### 3. Composition/information on ingredients

Information on hazardous components

Active ingredients	Conc. %	CAS #
Surfactants	5 - 15	-
Pine Oil	5 - 10	8002-09-3

### 4. First-aid measures

- Inhalation** : Move to fresh air.
- Skin contact** : If irritation occurs due to prolonged contact, rinse thoroughly with water. If irritation persists, seek medical advice.  
If spilled on clothing, change clothes and wash clothing before reuse.
- Eye contact** : IMMEDIATELY rinse eyes with plenty of water for 10 to 15 minutes while holding lids open. Remove any contact lenses if applicable.  
Get medical attention if irritation develops and persists.
- Ingestion** : If swallowed, Rinse mouth. DO NOT induce vomiting. IMMEDIATELY calls a Physician or Poison Control Center.
- Advice to Doctor** : Treat symptomatically

### 5. Fire and explosion measures

- Flammability** : This mixture is not flammable under normal conditions.
- Hazardous combustion products** : In a large fire, heating may produce toxic fumes containing carbon monoxide, carbon dioxide, sulfur dioxide and nitrogen oxides.
- Suitable Extinguishing Media** : Water spray or fog, Foam, Dry chemical powder, Carbon dioxide.
- Personal protective equipment** : Fire fighters to wear self-contained breathing apparatus and suitable protective clothing.
- Standard procedure for chemical fires** : As in any fire, exercise caution when fighting any chemical fire.  
Fight fire with normal precautions from a reasonable distance.  
Use water spray or fog for cooling exposed containers.  
Do not enter fire area without full protective equipment including respiratory protection.  
**Be careful**, Spilled material may cause floors and contact surfaces to become slippery.  
Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

### 6. Accidental release measures

- Personal precautions** : Slippery when spilt. Avoid accidents, clean up immediately. Wear appropriate protective equipment during clean-up.

**Methods for Containment & cleaning up** : Contain spill to prevent contamination of drains / waterways.  
Soak up with inert absorbent material such as sand or earth.  
Dike large spills.  
Wash area down with water to remove residual material.  
Collect and seal in properly labeled containers for disposal in accordance with local regulations.

## 7. Handling and storage

**Handling** : Keep away from food, drink and animal feeding stuffs.  
Wash hands and other exposed areas with mild soap and water before eat, drink or smoke and when leaving work.  
Use good personal hygiene practices.

**Storage** : Keep in a dry, cool and well-ventilated place. Keep from freezing.  
Keep container tightly closed when not in use.  
Store away from strong acids or oxidizers.  
KEEP OUT OF REACH OF CHILDREN.

## 8. Exposure controls and personal protection

**Eye/Face protection** : None required with normal consumer use.  
If a splash is likely, chemical goggles may be needed.

**Hand/skin Protection** : None required with normal use.  
Protective gloves (rubber, neoprene) should be used for prolonged direct contact.

**Respiratory protection** : None required with normal use.

**Hygiene measures** : Handle in accordance with good industrial hygiene and safety practice.

## 9. Physical and chemical properties

**Appearance** : Liquid

**Color** : Green

**Odor** : Pine

**PH** : 6.5 - 7.5

**Density** : 0.95 - 1.05

**Solubility in water** : Completely Soluble

## 10. Stability and reactivity

**Chemical Stability** : Stable under normal conditions

**Conditions to Avoid** : Excessive heating. Direct sunlight.

**Incompatible Materials** : No Specific data

**Hazardous Decomposition product** : When heated to decomposition this product produces Oxides of carbon (COx), and Hydrocarbons.

**Hazardous polymerization** : Will not occur.

## 11. Toxicological information

- Acute Toxicity** : **Pine oil**  
Acute oral toxicity (LD50): 3200 mg/kg [Rat].  
Acute dermal toxicity (LD50): 5000 mg/kg [Rabbit].
- Carcinogenicity** : This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.
- Routes of exposure** : Inhalation, Ingestion, Eye contact, Skin contact.
- Acute & Chronic Potential Health Effects** : ***Acute Effects:***  
Skin: No significant irritation expected from a single short-term exposure.  
Eyes: Direct contact cause irritation.  
Ingestion: Low ingestion hazard in normal use.  
Inhalation: Irritates respiratory passages very slightly.  
***Chronic Effects:***  
Skin: Repeated or prolonged exposure may cause irritation.  
Inhalation: No known applicable information.  
Ingestion: Repeated ingestion or swallowing large amounts may injure internally.
- Germ Cell Mutagenicity** : The limited information located doesn't suggest that material is mutagenic.
- Reproductive Toxicity** : This material has been classified as non-hazardous

## 12. Ecological information

- Ecotoxicity effects** : Harmful to aquatic life in high concentrations.
- Biodegradability** : The substance is readily biodegradable
- Bioaccumulation** : The product does not contain any substances expected to be bioaccumulating.

## 13. Disposal considerations

- Waste Disposal** : Drain well. Dispose of as normal household waste.
- Empty containers** : Rinse out empty container with water and consign to normal waste.

## 14. Regulatory information

- United States TSCA** : All ingredients are listed on the TSCA inventory.
- Canadian (DSL)** : All components of this product are on the Canadian DSL.
- California Proposition 65** : This product does not contain any chemicals known to the State of California to cause cancer, birth, or any other reproductive defects.
- SARA 302** : No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

- SARA 304** : This material does not contain any components with a section 304 EHS RQ.
- SARA 313** : This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

## 15. Transport information

**Land transport (DOT)/ Sea transport (IMDG/IMO)**  
Not dangerous goods

## 16. Other information

**HMIS III:**

<b>HEALTH</b>	<b>1</b>
<b>FLAMMABILITY</b>	<b>0</b>
<b>PHYSICAL HAZARDS</b>	<b>0</b>
<b>PERSONAL PROTECTION</b>	<b>X</b>

0 = not significant, 1 = Slight,  
2 = Moderate, 3 = High,  
4 = Extreme, \* = Chronic

The information of this MSDS is based on the present state of our knowledge and on current EEC and national laws. It is always the responsibility of the user to take all necessary steps in order to fulfill the demand laid down in the local rules and legislation. The information in this MSDS is meant as a description of the safety requirements of our product. It is not to be considered as guarantee of the product's properties.
