

1. Product and Company Identification

Product Name : AD-L7 Confy
Usage : Laundry Fabric Softener
Address : KSA -Khobar – NSH Tower 9th floor
Phone Number : +966 50 519 6007
E-mail : info@maracialsharq.com
Revision date : Jan, 2021.D
Distributed by : Maraci Alsharq

2. Hazards Identification

Hazard Classification Product: : This product is **Not** classified as hazardous according to Regulation (EC) No. 1272/2008.

Health hazards : Eye irritation

2.2 Label elements

Hazard pictograms

Signal Word : Warning

Hazard Statements : Causes eye irritation.

Precautionary statements : Read label before use.
Keep out of reach of children.

Inhalation : None expected under normal conditions.

Ingestion : Causes discomfort if swallowed. Large doses may result in nausea, vomiting, diarrhea and gastrointestinal irritation.

Eye contact : Contact may cause redness and/or tearing stinging, itching, swelling.

Skin contact : No specific symptoms known. But prolonged or excessively repeated skin contact could lead to removal of natural oils from skin.

3. Composition/Information on Ingredients

Information on hazardous components

Active ingredients	Conc. %	CAS #
Cationic surfactant	10.0 -20.0	-
Perfume	1.0 – 5.0	-

4. First-Aid Measures

- Inhalation** : Unlikely route of exposure as the product does not contain volatile substances. If spray/mist has been inhaled, proceed as follows. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing.
- Skin contact** : Wipe off excess with tissue or towel. Remove contaminated clothing. Wash well with water. Seek medical advice if irritation occurs.
- Eye contact** : Immediately hold the eyes open and wash with fresh running water for at least 15 minutes. Ensure complete irrigation of the eye by keeping the eyelids apart and away from the eye and moving the eyelids by occasionally lifting the upper and lower lids. Get medical attention if irritation develops and persists.
- Ingestion** : Immediately remove product from the mouth and rinse mouth out with plenty of water. Drink 1 or 2 glasses of water (or milk). If a large amount swallowed, or symptoms develop, obtain medical attention.
- Notes to physicians** : Treat symptomatically

5. Fire and Explosion Measures

- Flammability** : This mixture is not combustible under normal conditions. However, it will break down under fire conditions and the hydrocarbon component will burn.
- Suitable Extinguishing Media** : Carbon dioxide, dry chemical powder, water spray or fog and foam may be used as extinguishing media. Water can be used to cool fire exposed containers.
- Hazardous combustion products** : In a large fire, heating may produce toxic fumes containing carbon monoxide, carbon dioxide, sulfur dioxide and nitrogen oxides.
- Personal protective equipment** : Fire fighters to wear self-contained breathing apparatus and suitable protective clothing.
- Standard procedure for chemical fires** : As in any fire:
Fight fire with normal precautions from a reasonable distance.
Do not enter fire area without full protective equipment including respiratory protection.
Exercise caution when fighting any chemical fire.

6. Accidental Release Measures

- Personal precautions** : Avoid eye and skin contact. Slippery when spilt. Avoid accidents, clean up immediately. Wear appropriate protective equipment during clean-up.
- Methods for cleaning up** : Small Spillages: Flush away spillage with plenty of water. Large Spillages: Contain and absorb spillage with sand, earth or other non-combustible material. Collect and place in suitable waste disposal containers and seal securely.

Environmental Precautions : Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body.

7. Handling and Storage

Handling : Avoid eye contact. Avoid repeated or prolonged skin contact. Follow product label directions. Keep away from food, drink and animal feeding stuffs. Wash hands and other exposed areas with mild soap and water before eat, drink or smoke and when leaving work. Use good personal hygiene practices.

Storage : Store in original containers in a cool, dry and well-ventilated place and away from direct sunlight. Store away from incompatible materials including strong oxidizing agents, foodstuffs and foodstuff containers. Keep container tightly closed when not in use. KEEP OUT OF REACH OF CHILDREN.

8. Exposure Controls and Personal Protection

Respiratory protection : Due to the non-volatile nature of the product require no special equipment with normal careful use.

Eye/Face protection : No specific eye protection required during normal use

Hand/skin Protection : No special protective equipment required. Care should be taken with sensitive or damaged skin. When handling bulk quantities, Wear gloves.

Engineering controls : Use in a well-ventilated area.

Hygiene measures : Handle in accordance with good industrial hygiene and safety practice. Always wash hands before smoking, eating, drinking or using the toilet.

9. Physical and Chemical Properties

Appearance : Viscous Liquid

Color : White

Odor : Perfumed

PH : 3.5-5.0

Density : 0.95-1.05

Solubility in water : Miscible with water

10. Stability and Reactivity

Stability : Stable under normal conditions.

Conditions to Avoid : There are no known conditions that are likely to result in a hazardous situation.

- Incompatible Materials** : No specific material or group of materials is likely to react with the product to produce a hazardous situation
- Hazardous Decomposition Products** : Carbon monoxide, carbon dioxide, sulfur dioxide and nitrogen oxides.
- Hazardous reactions** : There are no known reactivity hazards associated with this product.

11. Toxicological Information

- Routes of exposure** : Inhalation, Ingestion, Eye contact, Skin contact.
- Chronic Exposure** : Health injuries are not expected under normal use.
- Acute & Chronic Potential Health Effects** : **Skin** Repeated or prolonged skin contact may lead to irritation.
Eye May cause mild to moderate irritation to the eyes, including redness and stinging
Ingestion Low ingestion hazard in normal use. Considered an unlikely route of entry in commercial/industrial environments. Low toxicity. Large doses may result in nausea, vomiting, diarrhoea and gastrointestinal irritation.
Inhalation Not normally a hazard due to the non-volatile nature of the product
- Carcinogenicity** : This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.
- Germ Cell Mutagenicity** : The limited information located does not suggest that the components of the product are mutagenic.
- Reproductive Toxicity** : This material has been classified as non-hazardous.

12. Ecological Information

- Ecotoxicity effects** : The product ingredients are expected to be safe for the environment at the concentrations predicted under normal use and accidental spill scenarios.
- Biodegradability** : The surfactant(s) contained in this product complies (comply) with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents.
- Mobility in soil** : No information available.
- Bioaccumulation** : The product does not contain any substances expected to be bioaccumulating.

13. Disposal Considerations

- Waste disposal** : Discharge used solutions to drain. Dispose of as normal household waste. Small amounts (less than 5 Liters) of unwanted product may be flushed with water to sewer.
- Empty containers** : Rinse out empty container with water and consign to normal waste.
- RCRA waste class** : Considered **Non-hazardous** waste according to Federal RCRA regulations (40 CFR 261).

14. Regulatory Information

Safety, health and environmental regulations/legislation specific for the substance or mixture
Ensure all national/local regulations are observed.

United States TSCA	: All ingredients are listed on the TSCA inventory.
Canadian (DSL)	: All components of this product are on the Canadian DSL.
California Proposition 65	: This product does not contain any chemicals known to the State of California to cause cancer, birth, or any other reproductive defects.
SARA 302	: No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.
SARA 304	: This material does not contain any components with a section 304 EHS RQ.
SARA 313	: This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

15. Transport Information

Land transport (DOT)

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.

Sea transport (IMDG/IMO) / Air transport (IATA)

UN number	: Not applicable
Proper Shipping Name	: Non hazardous liquid material
Class	: Not applicable
Packing group	: Not applicable
Marine pollutant	: No

16. Other Information

NFPA:

HMIS III:

HEALTH	1
FLAMMABILITY	0
PHYSICAL HAZARDS	0
PERSONAL PROTECTION	X

0 = not significant, 1 = Slight,
2 = Moderate, 3 = High,
4 = Extreme, * = Chronic

The information of this MSDS is based on the present state of our knowledge and on current EEC and national laws. It is always the responsibility of the user to take all necessary steps in order to fulfill the demand laid down in the local rules and legislation. The information in this MSDS is meant as a description of the safety requirements of our product. It is not to be considered as guarantee of the product's properties.
